

Innovative Solutions for Enhanced Patient Safety & Care

Working in partnership to provide innovative solutions designed for **enhanced patient safety and care**, Dakota Healthcare and Dalen Healthcare have joined forces to deliver fit-for-purpose all-in-one medical cart and data capture solutions.

With the ability to integrate into a variety of hospital systems and IT infrastructures, our specialised solutions are suitable for a range of clinical environments.

What Can We Supply?

- ✓ High-quality medical carts
- ✓ All-in-one PCs / monitors
- ✓ Printers & scanners
- ✓ Labels, wristbands, printer ribbons & tags
- ✓ Medical-grade keyboards & mice

Customisable Medical Carts

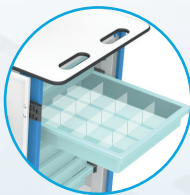

Dalen Healthcare's mobile carts are designed with high-quality components to ensure continuous and reliable use. They are suitable for a range of solutions and can be configured for a host of applications including secure medication and drugs trolleys for EPMA, all-in-one phlebotomy workstations, mobile EPR and video conferencing.

Dalen can assist with initial deployment and support during the digital transformation, all the way through to daily use. The carts are anti-microbial, easy to clean and infection-control friendly. Thanks to their height adjustment feature, Dalen's ergonomic carts enable the user to work comfortably and safely, while a range of screen mounts can be adjusted to remove obstruction from the patient's eyeline or to share information easily with colleagues.

Optional Features Include:

Bag holder for easy disposal of waste

Drawer dividers for organising medication

Trust's logo printed directly onto the cart

Digital code lock replaces need for keys

Ergonomic arm & secure laptop bracket

Monitor height, twist & swivel adjustment

Medical-Grade Hardware & Consumables

Well-versed in the data capture and printing prerequisites of clinicians within medical settings, Dakota Healthcare's product portfolio comprises of state-of-the-art hardware for mission-critical clinical applications.

Thanks to long-standing relationships with industry-leading manufacturers to bring best-of-breed products and solutions to the market, Dakota Healthcare is able to offer advice and recommendations to help clients select the right devices and technology for their specific requirements, including medical-grade printers, scanners, keyboards and mice as well as labels, wristbands, printer ribbons, tags, monitors and all-in-one PCs.

Strong Industry Relationships With a Range of Partners:

Talk To Us About Your Workflow

We can tailor our combined medical cart and data capture solutions to facilitate the needs of a range of healthcare applications including:

- ✓ EPR
- ✓ EPMA
- ✓ Phlebotomy
- ✓ Track & Trace
- ✓ Domiciliary Care
- ✓ Asset Tagging

- ✓ Bedside Point-of-Care

We've Got You Covered

Design consultancy

Our in-house design team can tailor our solutions to meet your requirements in full.

On-boarding & user support

We offer support at an early stage, providing how-to guides & product demonstrations to aid with training.

Kerbside to bedside

Installation will be planned around your needs, with a clear plan from kerbside to bedside, operating as an extension of your team.

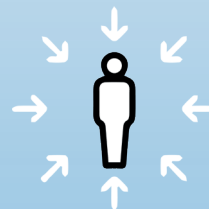

Future proof

We honour your 'right to repair' and offer spare parts for the lifetime of the product. We can also adapt our solutions to support new hardware as systems evolve.

Won't let you down on the ward

All of our solutions are made with high-quality components ensuring that they can always be relied upon.

We're with you all the way

We focus on project management and initial support, with a relationship that runs throughout the whole product lifecycle. We can even take away your old medical carts and responsibly recycle them.

Talk to Dalen Healthcare or Dakota Healthcare today and discover how our fit-for-purpose all-in-one medical cart and data capture solutions can enhance your clinical environment.

About Dakota Healthcare

As Dalen Healthcare's only Gold Accredited Partner in the UK, Dakota Healthcare provides true integration expertise across a broad range of healthcare applications, enabling medical professionals in over 200 NHS Trusts to understand and adopt digitalised data capture technologies.

Our fit-for-purpose solutions have been created with the efficient communication between medical professionals in mind, in addition to enhancing and enriching patient care.

We have considerable experience in deploying our solutions into leading hospital systems such as Meditech, Cerner, Dedalus (formerly Lorenzo), Clinisys (formerly Sunquest) and Epic Software and are fully equipped to deliver solutions, services and support within new, existing or legacy IT infrastructures to optimise healthcare environments whilst working effectively and seamlessly within designated timescales.

About Dalen Healthcare

Dalen Healthcare provides high-quality medical cart solutions to help improve patient care. We work closely with front-line staff to develop our products and improve the user experience, helping to streamline the initial cart installation and deployment for effective and efficient bedside use.

Our in-house design and manufacturing facility allows us to tailor our solutions to meet customer requirements in full, creating the right cart for the specific application.

Established in 1957, we have over 60 years' experience, enabling us to provide solutions that help improve patient well-being. Based in Birmingham, we employ over 70 people across our offices and factory and work with a range of NHS partners to deliver high-quality specialised solutions.
