

Compact AIO PC

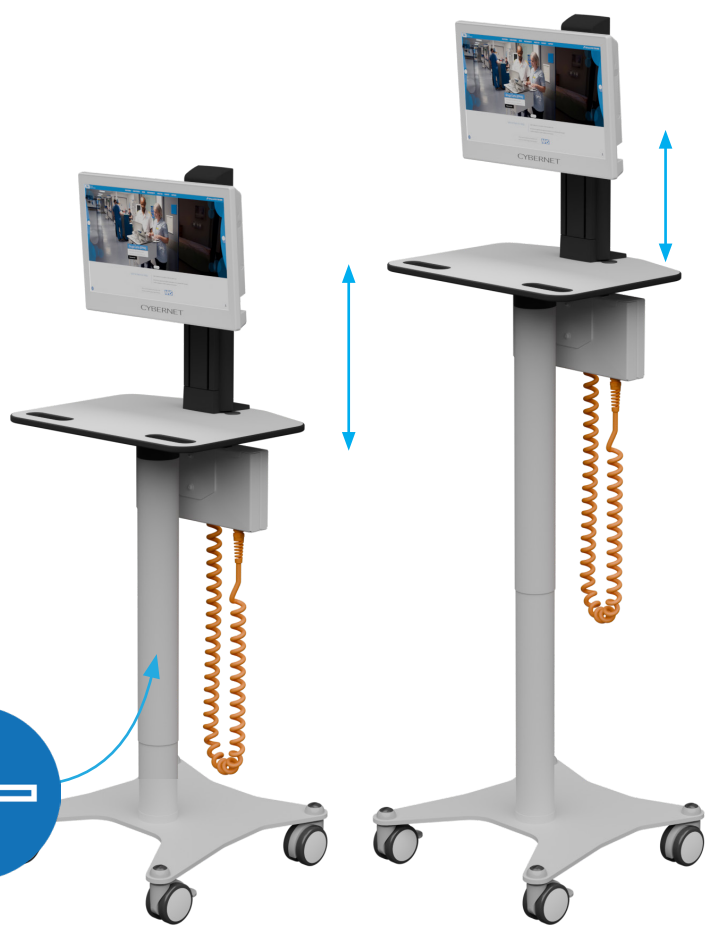

Small footprint for Space-Critical Clinical Environments

# Nimble

## Compact AIO PC Cart

### The Solution for Space-Critical Clinical Environments

The Nimble is a compact, All-In-One PC Cart designed for hospital environments where space is a premium and clinical efficiency is critical. The small footprint and lightweight, manoeuvrable design make this cart ideally suited for use in settings where floor space is limited but access to digital systems is essential, such as maternity units, emergency departments, and single-patient isolation rooms.

### Ergonomic Adjustment

Height Adjustable for maximum ergonomic comfort. Adjust the worktop and screen height independently to suit each users needs.

## Minimal Footprint, Maximum Operational Value

Designed specifically for 15" battery-powered AIO PCs

Nimble enhances EPR access and patient care in busy clinical environments. Compact, sturdy and highly mobile, it's ideal for space-limited areas such as maternity units, ICU, treatment bays, and other busy clinical settings – enabling safer, more efficient care where it's needed most.

## Mobile & easy to use

Nimble is designed with hospital staff in mind

The independently adjustable worktop and screen heights allow each user to set their ideal working position, reducing strain and supporting long shifts. The cart's ergonomic design ensures comfort during use, while the small footprint allows easy manoeuvrability between areas. Built for demanding healthcare settings, Nimble delivers a reliable, cost-effective solution for modern clinical workflows.
