

Accommodates **ALL** major tablet models

Manual height adjustment

## PRODUCT DETAILS

# Link Tablet Cart

The Link Tablet Cart is a slim tablet trolley that has been designed to help patients stay connected and to facilitate video communication within a hospital environment. This solution is ideal for bedside video calls, allowing patients to stay in touch with family and friends, receive doctor consultations remotely and reduces the chance of infecting others.

Each cart features height adjustment, allowing the tablet to be adjusted to accommodate any user. The Link Tablet Cart has also been designed with lockable castors, small footprint & slim profile for easy manoeuvrability around a crowded hospital environment.

- **Accommodates all users**  
Tablet height can be adjusted to suit user preference.
- **Configured to your needs**  
Accommodates all major tablet models.
- **Easily cleanable**  
Infection control friendly design, with anti-bacterial and cleanable surfaces, preventing accumulation of dirt and germs.
- **Stay connected**  
Ideal for patient bedside video calls, helping them stay connected with family and friends whilst also allowing for safer doctor consultations.
- **Easy transportation**  
Light weight design with lockable castors, small footprint & a slim profile for easy manoeuvrability.
- **Integrated charging**  
Smart charger detects and charges all major tablet models at full speed.
