Healthcare Solutions Summary Guide

ZEBRA CAPTURE YOUR EDGE

MOBILE COMPUTERS AND TABLETS

TC52X-HC Series

- Builds on highly successful TC52-HC
- Built on SD660 platform with extended capabilities
- Powerful voice solution
- Secure text messaging, mobile alarms and alerts
- Mobility DNA Professional & Enterprise License included
- Secure EHR access
- Medical grade housing withstands constant exposure to disinfectants
- Removable, Hot Swap, Fast Charging Battery
- Red Alert Button
- 5-inch Full HD Display (1920x1080)
- Integrated Imager with white/green Illumination/aimer

TC2x-HC

- Built on SD660 platform with extended capabilities
- Supports PTT and VoIP
- Mobility DNA Professional included, Upgrade to MDNA Enterprise license option
- Secure text messaging, mobile alarms and alerts
- Secure EHR access
- Medical grade housing withstands constant exposure to disinfectants
- Removable Battery
- 5-inch HD Display (1280x720)
- Red Alert Button
- Integrated camera; optional SE4100 enterprise-class scan engine with white and green illumination/aimer

ET4x-HC Series

- Android operating system
- Large high-resolution 10.1" display
- Rugged but lightweight
- Medical grade housing withstands constant exposure to disinfectants
- Built-in enterprise-class scanner with white/green illumination/aimer
- Red emergency alert button
- Secure EHR access
- Extra-high-capacity PowerPrecision battery that is field replaceable
- Mobility DNA Professional included, upgrade to Mobility DNA Enterprise License
- Fastest most reliable wireless connectivity: ET40-HC (Wi-Fi 6) and ET45-HC (Wi-Fi 6 and 5G)
- Supports PTT and VoIP

PRINTERS

ZD510-HC

- The industry's easiest to use and most dependable wristband printing solution
- Prints on Zebra's Z-Bands, up to 4x more durable than the leading competitor
- Disinfectant ready, UV-resistant ready plastics

ZQ610-HC

- Designed specifically for healthcare
- Color display of printer status
- Fast, dependable wireless connections
- Improve specimen labeling accuracy and patient safety
- Medical grade housing withstands constant exposure to disinfectants

ZQ620-HC

- Advanced technology
- Innovative design
- Large color display
- Superior battery management
- Instant wake-up feature
- Fast 802.11ac and Bluetooth wireless connection
- Medical grade housing withstands constant exposure to disinfectants

ZD611-HC

- Healthcare compliant power supply
- Disinfectant-ready, easy-to-clean plastics with sealed button interface
- UV-resistant housing supports UV cleaning protocols
- 4.3" full color touch LCD with 3-button user interface
- Print DNA Software to quickly setup, manage and secure printers.

ZD411-HC

- Disinfectant-ready, UV-resistant plastics
- Suitable for patient ID, specimen labels, pharmacy
- Direct thermal helps to protect privacy by leaving no record on a ribbon
- Print DNA software to easily setup, manage and secure printers

ZD621-HC

- Disinfectant-ready, UV-resistant, sealed button interface
- Healthcare compliant power supply
- Full color touch LCD with 3-button user interface
- Print DNA software to quickly setup, manage and secure printers

ZD421-HC

- Disinfectant-ready, UV-resistant plastics
- Field-installable media handling and communication options, including wireless
- 5 status icons, 3 button user interface
- Print DNA software to quickly setup, manage and secure printers

ZT231

- Zebra's entry-level industrial printer
- Compact footprint
- 4.3-inch full-color touch display
- Available in direct thermal or thermal transfer models

ZT411

- Excellent for moderate-volume industrial applications
- Field-installable RFID, communication and media-handling options
- 4.3-inch full-color touch display
- Lighted media and ribbon paths for increased visibility

SCANNERS

DS8100-HC Series

- Corded and cordless models
- Unprecedented performance reads tiny, reflective, and curved barcodes on medicine vials, IV bags, syringes, specimen slides and more
- Housing devoid of speaker holes, exposed screws, and overmold is easy to clean
- Disinfectant-ready housing supports the widest range of disinfectants for use throughout all your facilities
- Night mode avoids disturbing patients
- Green LED aimer avoids triggering PTSD episodes and is safe for use everywhere in the hospital
- Power sources can be swapped any time (DS8178-HC)
- Power gauge indicates when scanner needs to be charged or replaced (DS8178-HC)

DS4600-HC Series

- Corded model
- Disinfectant-ready housing can handle regular sanitizing
- Unprecedented performance reads tiny, reflective, and curved barcodes on medicine vials, IV bags, syringes, specimen slides and more
- Night mode avoids disturbing patients
- Green LED aimer avoids triggering PTSD episodes and is safe for use everywhere in the hospital

DS9900 Series Hybrid Imager for Labs

- True hybrid form factor that is purpose-built for the lab with both handheld and hands-free use
- Reads the many types of barcodes found in the lab, including small, high density barcodes and color-coded specimen trays or biopsy cassettes
- High performance swipe capability with rapid-fire 240-inch/second swipe speed
- Reads securPharm labels used to protect patients from receiving counterfeit medications
- Optional RFID model for reading RFID tags on blood bags

CS60-HC Series Companion Scanner

- Groundbreaking design easily converts between corded and cordless operation
- Trusted scan performance reads barcodes on patient wristbands, medication vials, IV bags and specimen trays
- With a monocoque design, inductive sensing touch buttons and contactless charging, the scanner's crevice-free surface helps eliminate places where germs can hide

- Disinfectant-ready housing and IP65 sealing allow for safe wipe-downs with the widest range of disinfectants for use throughout all your facilities
- Effortless multi-tasking with a second programmable button that can be used to interface with another host application
- Cutting edge mobility with Qi inductive charging, NFC Tap & Pair and full shift power

- Night mode avoids disturbing patients
- Green LED aimer avoids triggering PTSD episodes and is safe for use everywhere in the hospital

BARCODE WRISTBANDS

LaserBand2® Advanced

- Advanced shape and design makes assembly easy and allows the wristband to lie flat on the wrist to enable quick scanning
- Self-laminating design protects printed text and barcodes
- Available in adult, pediatric and infant sizes, as well as a labor and delivery format
- Latex-free

ComfyCuff® + Swaddle Band

- Soft, foam cuff protects an infant's delicate skin
- Swaddle Band enables quick scanning of swaddled babies by creating an extension between the ComfyCuff and the barcode ID tag

Z-Band®

- Up to 4x more durable than the leading competitor
- UltraSoft line is one of the softest available
- Soft, adjustable newborn wristbands, feature a flag to enable quick scanning
- Maternity ID Solution streamlines identification with the print of an adult and infant wristband as a set
- Latex-free

LABELS

Thermal Barcode Labels

- Over 500 paper and synthetic label and tag materials
- 400 stock ZipShip℠ products that are ready to ship
- Specific sizes compatible with popular pharmacy and laboratory systems
- Specific materials to support ISBT-128 Blood Bag Labeling standard, FDA UDI and offer resistance to chemical exposure

Alert Solutions

- Color-coded wristbands and labels pre-printed with patient conditions
- Supports U.S. color-coding standards for patient conditions such as allergy, DNR, fall-risk, latex-allergy, and restricted limb

RFID Labels

- Patient ID, specimen, laboratory and pharmacy labeling, document and patient records management
- Asset tracking of wheelchairs, beds, oxygen canisters, IV pumps and medical diagnostic tools

Mobile Specimen Collection Label

- Paper labels feature a special adhesive designed to adhere to small, curved surfaces.
- Available in IQ Color for automated identification of STAT samples
- Polypropylene labels are moisture resistant and adhere well to small curved surfaces

Microscope Slide Labels

- Designed to withstand the most common stains and chemicals found in laboratories
- Remains readable ensuring reliable sample identification

SOFTWARE AND SERVICES

Zebra DNA

Zebra DNA is a portfolio of software, applications and utilities that transforms your Zebra mobile computers, scanners and printers into true enterprise solutions.

PrintSecure

Configure your printers to use secure connections and block unwanted access and ensure your printer data and infrastructure are protected.

PPME (Printer Profile Manager Enterprise)

Remotely manage all your networked Print DNA printers from from anywhere, at anytime.

IoT Connector

IoT Connector enables your analytics dashboard to access vital information from your fleet of barcode scanners - real-time alerts, health statistics, barcode scans, asset information - all with location, date and time stamps.

UDI Scan+

UDI Scan+ makes it easy to configure your Zebra scanners to accurately capture and parse UDI data. A single scan captures it all, enabling you to unlock the benefits of UDI to increase patient safety and better manage implantable devices.

Blood Bag Parse+

Blood Bag Parse+ makes it easy to capture all the data required on every blood bag—from blood type and date of donation to donation location, expiration date and more. One trigger pull captures it all—up to seven barcodes —automatically parsing the data and sending it in the proper order to your backend hospital, clinic or lab enterprise system.

PowerPrecision Battery Management

With PowerPrecision and PowerPrecision+ batteries, you have critical intelligence about their health, while the on-device Battery Management application gives you the visibility to anticipate and avoid issues.

MotionWorks

Zebra MotionWorks is an innovative portfolio of real-time location solutions and technologies that empowers organizations to optimize the utilization of their facilities, asset allocation and internal processes. By leveraging real-time location technology, the solutions offer healthcare organizations enhanced visibility into medical equipment, employees, patients, and capacity management for hospitals to provide high-quality care.

Workforce Connect

Workforce Connect makes it easier and faster for hospital staff to stay on the same page throughout their shift. Database access, task management, messaging and 1:1 voice enabled collaboration help teams deliver their best care, while patient safety features provide a more comfortable experience.

Signature Services

Emerging technologies and rising customer expectations mean investing in edge-data solutions. Yet, it's not always easy to integrate them into existing IT environments and workflows. Signature Services solves this issue by accelerating the speed with which businesses can introduce these and other solutions to operate more productively with minimal investment, driving new revenue growth.

VisibilityIQ™ Foresight

Designed to streamline operations, VisibilityIQ Foresight goes beyond what an MDM alone can offer you. It is driven by multi-source data aggregation and machine learning analytics delivered in a color-coded, one-view solution illustrating actionable insights and threshold-based email alerts about mobile devices. Focused on health and utilization monitoring, it provides insight into your devices no matter where they're located across the operation and also collects historical data for predictive intelligence. That's how you can catch problems before they impact your business and accurately forecast future needs for smoother operations.

One Care®

Maximize Zebra device uptime and business performance with Zebra OneCare Support Service.
