

5 Steps to Success:

Optimise, Decarbonise & Transform Your Fleet with the New & Improved eTrakLogic® ePOD Solution from Dakota

OPTIMISATION

DECARBONISATION

TRANSFORMATION

5 Steps to Success

Your journey towards achieving optimum route optimisation, net zero targets and total fleet transformation couldn't be simpler with our easy step-by-step process.

This innovative approach is designed to ensure that our projects are aligned with your goals from start to finish, delivering maximum value at every stage to create a clear roadmap for success, tailored to the unique needs of your project.

STEP 1 Validation

Start with our free benchmark service to validate what efficiencies we can generate for your organisation.

STEP 3 LEARN

Select the bundle best suited to meet your needs and choose between 12 to 60 months terms.

STEP 5 Execute

Start enjoying the savings and efficiencies generated by our technology and save up to 30%.

STEP 2 ACTION

Try our award-winning PAYG optimisation service for 3 months to verify efficiencies.

STEP 4 UPDATE

We will update your bundle with learnings from the Action step and agree a plan for go live.

Optimise, Decarbonise & Transform your fleet with the eTrakLogic solution.
